

The Annual Meeting of the Brazilian Biophysics Society, one of the largest and most traditional gathering of Biophysicists in Latin America, occurs during the second semester of each year. Now in its 43rd edition, the 2018 meeting will be held again at the Mendes Plaza Hotel, in the city of Santos (SP), from September 27th to 30th.

The program covers a broad range of topics in Biophysics, thus making the event the appropriate venue for productive discussions on developments regarding Biophysics and its interfaces with Biochemistry, Medicine, Pharmacy, among other disciplines.

We believe our meeting is the perfect opportunity for researchers interested in Biophysics and related fields to present their latest results to a very distinguished audience. Therefore, we invite you to participate and to submit an abstract for the poster sessions.

Looking forward to seeing you in Santos!
Antonio Costa-Filho
President of SBBf

Scientific Committee:

Antonio J. Costa-Filho (USP), Rosangela Itri (USP), Leandro Barbosa (USP), Paulo Bisch (UFRJ), Pietro Ciancaglini (USP), Eneida de Paula (UNICAMP), Lucas Bleicher (UFMG), Ernesto Caffarena (FIOCRUZ), Christopher Kushmerick (UFMG), Alessandro Nascimento (USP), Emiliano Medei (UFRJ)

Plenary speakers:
